EARLY ELEMENTARY SCHOOL: A FAITH-FULL FOUNDATION

Here, students as young as 5 or 6 years old begin to blossom socially, academically and spiritually. As they explore their world with newfound confidence, their enthusiasm is met with wisdom and experience. By the time they “graduate” from second grade, they will have begun to build a foundation of faith and friends that – along with newly developed reading and math skills – will take them to the next level in personal and spiritual growth.

- Parental involvement is key to success at all ages, but particularly so in the early elementary grades. Our school welcomes parents and grandparents, always.
- The ability to read well is so important to later learning that our school dedicates 90-120 minutes of instruction to literacy each day.
- Teachers here coach children to successes appropriate for their age and ability level. The result? Kids who are confident and highly engaged.

O loving God, I give you this day. All that I think, and do, and say. I give you my love, with Jesus your son. Today I will try to love every one. Amen.
