

GRADES 3-5

IMMACULATE CONCEPTION ELEMENTARY SCHOOL

ABOUT OUR SCHOOL

Small class sizes (20:1)

The fusion of faith and knowledge

K-12 curriculum mapping

Research-based,
small groups literacy program

Framework-first approach to conceptual
understanding of mathematics

Year-round individualized progress
monitoring via standardized tests

Programs for students who are above or
below grade level in math or reading

Student participation in
weekly Mass and liturgical events

Professional Learning Communities
foster teamwork, consistency
among teachers

Weekly art, library, music and
physical education; optional Spanish

GladFriends
high school/elementary
mentoring program

Chef-prepared, whole foods
hot lunch program

St. Joseph Club (after school care)

218 Vine Street | Traverse City, Michigan | (231) 947-1252 | www.gtacs.org

UPPER ELEMENTARY: GROWING IN WISDOM AND SPIRIT

Along with an increase in physical stamina, attention span and memory comes a growing need for independence and personal responsibility. Friendships take on a new dimension. Students question, explore and try on new roles which are fielded by an understanding and compassionate staff. Surrounding the students are educators who have Christ as their partner in helping decide not just what is acceptable, but what is worthy of admiration in today's world.

- Students are encouraged to develop positive study habits, and are given goals tailored to their talents.
- Parents are welcome to volunteer in their child's classroom or to be part of seasonal or ongoing activities at school.
- A variety of extracurricular activities are offered including LEGO First (robotics), Odyssey of the Mind, and more.

What a gift it is for your children to spend their formative years in an environment where their heart and soul – in addition to their mind – are developed, so when they are faced with the challenges of this society, they are ready to make good choices.

– Catholic School Principal
