COVID-19 Update: School Closure Extended by Executive Order

Dear GTACS faculty, staff, and families,

Earlier today, Gov. Gretchen Whitmer issued the [Stay Home, Stay Safe executive order](#) which means, in addition to many other new restrictions, that students will now not be able to return to school until at least April 14. Factoring in the Good Friday and Easter Monday holidays, this adds four additional days to our need for remote instruction.

We remain focused on helping our students continue learning despite the challenging circumstances. You can expect continued updates from your respective building principals and/or teachers, and we will soon have a dedicated page on our website to help you keep track of assignments and learning resources.

Today's news was difficult on many fronts. We are praying for you and hope we can count on your continued prayers for us.

Sincerely yours in Christ,

Michael R. Buell

Superintendent
