

Dear 5<sup>th</sup> grade students,

I would like to let you how much I miss you! It is difficult to believe that we are moving to remote learning for the rest of the school year. I pray that each and every one of you are safe and healthy during this time and that we can all see each other in person again sooner rather than later. This school year has been an amazing one and I have been so honored and blessed to have you in my class. Please know that I will continue to pray for all of you!

I would like you to follow and complete the math assignments that are posted on the fifth grade website for math. You can log into Khan Academy with the information that I sent our prior to Spring Break. Below are some math websites to provide enrichment activities that you may complete over the next two weeks. I would also like to set up another time that we as a class can meet to discuss the assignments and check in. I will send an email to parents to let you know the date, time, and source to be used for this meeting.

Thank you for all of your support at home! Please contact me with any questions or concerns you may have during our time apart. I miss your beautiful faces and teaching you all!

Blessings,

Mrs. Elshaw
