

Special Bookstore Instructions

2022-2023 School Year

Dear Parents:

Your student is currently signed up to take Anatomy, Honors Chemistry, AP Chemistry, Pre-Calculus, or Honors Pre-Calculus next year. In August, when the online bookstore opens, these classes will not have a book listed in the bookstore because the newest editions were priced close to \$200 each or were no longer available. For that reason, we are asking you to purchase a used version on your own.

The Anatomy book: Hole's Essentials of Human Anatomy and Physiology by David Shier, 10th Edition (ISBN: 9780072965636)

The AP Chemistry book: Chemistry, 9th ed by Steven and Susan Zumdahl (ISBN: 978-1-133-61110-3)

The Honors Chemistry book: Chemistry, 9th ed by Steven and Susan Zumdahl (ISBN: 978-1-133-61110-3)

The AP Chemistry Workbook: Fast Trak to a 5: Preparing for the AP Chemistry Examination 9th Workbook by Steven Zumdahl (ISBN: 978-1133611516)

The Pre-Calculus Book and Honors Pre-Calculus Book: **Precalculus:** Graphical, Numerical, Algebraic 7th Edition by Franklin D. Demana, Bert K. Waits, Gregory D. Foley, Daniel Kennedy (ISBN: 978-0132276504)

You are welcome to find used versions on your own, but we recommend buying one of two ways:

#1. There are currently plenty of these used books available on Amazon ([click here for: Anatomy](#), [click here for Honors Chemistry and AP Chemistry](#), [click here for the AP Chem Workbook](#), and [click here for: Pre-Calculus and Honors Pre-Calculus](#)).

#2. Alternatively, you may purchase from a family whose student took the class this past year. You are welcome to use the [GTACS Uniform & Book Exchange Facebook Group](#) as a means of purchasing or selling the books listed above.

Please feel free to contact me if you have any questions.

Thank you,
Vanessa Tucker
