GROWTH IN WISDOM AND VIRTUE

Our middle school is the bridge that prepares students academically, emotionally and spiritually for secondary education. Leadership skills, character development, and higher level critical thinking skills are essentials to helping students at this age continue their formation to Christian adulthood. Here, students will practice the art of making positive decisions in an environment in which expectations are high, guidelines are clear, and encouragement is ever-present.

- Character, compassion and commitment – those three words comprise the code of conduct at our middle school.
- The environment fosters self-esteem and allows students to develop their personal strengths and leadership abilities.
- Teachers nurture students' emerging independence while providing appropriate levels of support and mentorship.
