

Shadow DAYS

Shadow Days are a great time to visit our Catholic schools! Each visiting student is paired with a friend or peer with similar interests who serves as our guest's personal guide throughout the visit.

Shadow Days are available throughout the year; for best results, please contact Admissions at your earliest convenience to set up a mutually agreeable date to visit.

Prospective families may also choose to attend the *Experience the Difference* presentation, which brings together school leaders to answer any questions you may have. Admissions can also provide parents with a personal tour upon request.

We look forward to customizing a visit that fits your family's needs!

After our daughter shadowed, she felt more confident about making the transfer, and we really feel it helped ease her transition to the new school.
